

## **ARTISTS TALKING...**

"Great New Talent..."

**Vince Gill**

Preston is definitely on the fast track. Take that guitar and that hair and go tear up Nashville!

**Blake Shelton**

Preston, You don't need The Voice.

**Miley Cyrus**

It is enticing to see that kind of greatness from a kid so young.

**Adam Levine**

I love the way that you are just in your swag - full of abandonment! If I had to pick, I would pick Preston."

**Alicia Keys**

Preston is very driven. When he has a goal, he does whatever he can to accomplish it. He has a great voice and is doing awesome things at such an early age.

**Brantley Gilbert**

Preston sings and plays with the passion of an old soul and confidence beyond his years. We're both truly impressed with his talent and see bright things for him on the horizon.

**Rodney Atkins & Rose Falcon Atkins**

I'm certain it was my lullabies that brought out his passion for music! Preston has big talent but he's still my 'little professor'.

**Naomi Judd**

Preston has that star quality much like that of a young Vince Gill.

**John Berry**

Preston is a young singer/songwriter/guitar slinger who has the makings of a great new artist. I'm looking forward to co-writing with him his first #1 song...that is if we haven't already written it!!

**Dave Gibson, Gibson-Miller Band**

## **INDUSTRY BUZZ...**

Preston is my "go to" artist in Nashville. His versatile sound is what makes him unique in a town like Nashville. I have worked with Preston for a few years in different venues in front of various audiences and he never disappoints.

**Jill Schmidt, Wildhorse Saloon & Analog at Hutton Hotel.**

We're an accredited Museum and also the Hall of Fame. Preston and his musicians were truly respectful and very professional in every way. It's not just about having good musicians, it's more important to have good people. They were absolutely wonderful people to work with in every way!

**Debbie Parsley, Sr. Manager of Event Entertainment, Country Music Hall of Fame and Museum**

Gifted singer, songwriter and musician all mixed together with the ability to entertain like a sage veteran, Preston James is the complete package. His energy is infectious both on and off the stage. No doubt, his star will only get brighter.

**Paul Compton, President Music Highway**

It was great having Preston play on my show! First time I've ever had 2 standing ovations for the featured act!

**Marcus Whybrew, Program Director & Host of Puckett's Sunday Showcase**

Preston has more soul and better instincts than he should at such a young age. You can't teach that.

**Natalie Paslay • Creative Director / Liz Rose Music**

Preston James & Co. did a terrific job. Preston managed to captivate a group of the company "higher-ups" all evening long (including the CEO himself). There were multiple requests (always a good sign)...A very talented young group.

**Martin Frey - FOH Mix Engineer, Production Manager**

Preston is a true "triple threat" (singer, guitar player and writer).

**Bryan Hobbs • President / Nine Entertainment**

Preston was born to be a STAR! Pure and simple.

**Ron Browning • International Voice Coach to the Stars**
